Appendix x. Appendix Heading

This thesis appendix template has ready-made text for the title and the appendix number and automatic page numbering in the header. Fix the numbering and title of the attachment. In the header, replace only x with the correct number of the attachment. Do not change the header's automatic page numbering.

In your thesis, update the list of appendices on the table of contents page.

Create PDF files of your thesis and appendices. Combine thesis-related PDF files [in Adobe's free service](#).

Remove these instructions from your appendices.
